# The AmiriFX Partner Program

A complete partnership ecosystem combining lifetime IB rebates, one-time CPA payouts, daily settlements and a marketing toolkit refreshed quarterly.

AmiriFX operates a partner program with two distinct, complementary earning tracks. The **CPA Affiliate** track pays a one-time fee for every qualifying client introduction — perfect for performance marketers and high-traffic affiliates. The **Introducing Broker** track pays a lifetime rebate on every lot traded — perfect for partners building long-term communities, sub-IB networks and educational followings.

**Why this structure works.** Most broker programs force a binary choice — affiliate or IB. AmiriFX lets a single partner operate in both modes simultaneously, applying CPA economics to short-horizon paid traffic and IB economics to long-horizon community building. The two tracks share the same dashboard, tracking links, marketing kit and account team.

# Two Ways to Earn

**TRACK 01**

**CPA Affiliate**

**Up to \$1,200**

per qualifying client · one-time payout

Payment model	<b>One-time per client</b>
Trigger	<b>Qualifying deposit</b>
Min payout	<b>\$100 / qualifying client</b>
Mid tier	<b>\$300 – \$500 typical</b>
Max payout	<b>\$1,200 / VIP client</b>
Best for	<b>Paid traffic, ROAS marketing</b>
Tracking	<b>Postback, pixel, custom URL</b>

**TRACK 02 · MOST POPULAR**

**Introducing Broker**

**Up to \$12 / lot**

lifetime rebate · stacks across 3 tiers

Payment model	<b>Recurring per lot</b>
Trigger	<b>Every closed trade</b>
Tier 1	<b>\$8 / direct client lot</b>
Tier 2	<b>\$3 / sub-IB client lot</b>
Tier 3	<b>\$1 / extended network lot</b>
Best for	<b>Long-term communities, sub-IBs</b>
Tracking	<b>Lifetime attribution, full tree view</b>

**RUN BOTH TRACKS AT THE SAME TIME**

Every AmiriFX partner account supports both tracks simultaneously. Many of our top earners run **CPA on cold paid traffic** (where they need an immediate ROI signal) and **IB on warm community traffic** (where lifetime value matters more). The tracking system attributes every referred client to the correct track based on the referral link used.

**★ KEY DIFFERENCE**

CPA pays once when a client deposits; IB pays forever as the client trades. Most professional affiliates use both — CPA to recoup paid-traffic cost fast, IB to compound long-term.

The AmiriFX partner program is built around quality and long-term partnerships. We do not work with cookie-stuffing networks, incentivised-fraud affiliates, or partners using prohibited acquisition tactics. **Quality of network matters more than volume of clicks.**

## PART B OF F

CPA AFFILIATE TRACK · SECTIONS 05–07

# The CPA Affiliate Model

How the Cost-Per-Acquisition model works at AmiriFX, when CPA economics beat IB economics, and the workflow from referral click to wallet credit.

A CPA Affiliate partners with AmiriFX to bring in new traders through unique tracking links or promo codes provided by the partner dashboard. The affiliate earns a **one-time commission** when a referred client signs up, completes KYC and makes a qualifying deposit, capped at **\$1,200 per client** at the highest deposit tier.

## THE CPA CONVERSION FLOW

## WHEN TO USE WHICH TRACK

**WHEN TO USE CPA**

**Paid traffic & performance campaigns**

CPA economics work best when you need a clear, immediate ROI signal — Google Ads, Facebook Ads, native networks, comparison sites.

- Cold paid traffic with no relationship history
- Short campaign cycles (30–60 day attribution)
- Multi-broker comparison sites
- Affiliate networks with ROAS targets

**WHEN TO USE IB**

**Communities & long-term audiences**

IB economics outperform CPA when the partner has a long-term relationship with the audience — communities, educational followings.

- Engaged communities with high retention
- Educational platforms with active students
- Regional networks with sub-IB structures
- Signal channels with subscription tiers

CLIENT DEPOSIT	QUALIFICATION	CPA PAYOUT	PARTNER-SIDE NOTES

\$1,000 – \$4,999	KYC + 1 lot traded	<b>\$500</b>	Active trader tier. Volume-justified CPA.
\$5,000 – \$9,999	KYC + 3 lots traded	<b>\$800</b>	Premium-segment. High-value deposits.
\$10,000+	KYC + 5 lots traded	<b>\$1,200</b>	★ Maximum CPA. VIP-segment clients.

## EARNING SCENARIOS AT SCALE

**SCENARIO 01**

**Solo affiliate – \$3,000 / mo**

10 qualifying clients per month at an average \$300 CPA = \$3,000 monthly. Sustainable for a single affiliate running paid traffic.

**SCENARIO 02**

**Mid-tier – \$15,000 / mo**

30 clients per month at \$500 average CPA = \$15,000 monthly. Typical for a content site with paid promotion and steady traffic.

**SCENARIO 03**

**High-volume – \$60,000 / mo**

75 clients per month at \$800 average CPA = \$60,000 monthly. Achievable for affiliate networks aggregating sub-affiliates.

**! NOTE**

CPA payouts are subject to a clawback period – if a client withdraws their deposit within 60 days without trading the required qualifying volume, the corresponding CPA is reversed. This protects against deposit-and-withdraw abuse and aligns affiliate incentives with genuine client acquisition.

# The 3-Tier Rebate Model

An at-a-glance view of how rebates flow across three layers of your IB network — what each layer pays, who qualifies, and how the structure compounds over time.

Every AmiriFX IB earns from three distinct layers: the clients you personally introduce (**Tier 1**), the clients introduced by sub-IBs in your network (**Tier 2**), and the clients introduced by the next layer beneath them (**Tier 3**). All three tiers pay daily, automatically, with no manual claim required.

TIER	EARNING SOURCE	REBATE / LOT	QUALIFICATION	PAYOUT	ATTRIBUTION
<b>Tier 1</b>	Direct clients you introduce	<b>\$8.00</b>	5+ active clients	Daily	Lifetime
<b>Tier 2</b>	Clients of your sub-IBs	<b>\$3.00</b>	2+ active sub-IBs	Daily	Lifetime
<b>Tier 3</b>	Extended network clients	<b>\$1.00</b>	Automatic	Daily	Lifetime
<b>Combined</b>	Maximum per round-turn lot	<b>\$12.00</b>	Stacked across all three tiers		

## HOW THE LAYERS CONNECT

Picture your IB account at the top of a tree. Directly underneath are your Tier 1 clients — every lot they trade earns you \$8. Some clients (or separate partners you recruit) may become sub-IBs, building their own client base — every lot their clients trade earns you an additional \$3. And when those sub-IB clients themselves become IBs, the lots traded by their clients earn you another \$1.

### EXAMPLE FLOW

You introduce **Ali** directly → you earn \$8 per lot Ali trades. Ali becomes a sub-IB and introduces **Priya** → you earn \$3 per lot Priya trades (Ali earns \$8 on Priya directly). Priya becomes a sub-IB and introduces **Mohammed** → you earn \$1 per lot Mohammed trades.

09 · PART C · IB

# Tier 1 — Direct Clients

The top tier of the IB program — every client you personally introduce earns you the full \$8 per round-turn lot, for the entire lifetime of their account.

**REBATE**

**\$8**

per round-turn lot · daily payout

Calculation	Round-turn
Min. active clients	5
Max clients	Unlimited
Attribution	Lifetime
Withdrawal	Any time

**Who qualifies as Tier 1**

Any client opening an AmiriFX trading account through your unique referral link, banner, landing page or promo code is registered as a Tier 1 direct client permanently — no expiry.

**Qualification threshold**

Activate Tier 1 payouts with at least 5 active direct clients — those who completed KYC, made a qualifying deposit and traded at least one lot in the last 30 days.

**Why \$8 specifically**

Calibrated above the regional median (\$4–\$6) while remaining sustainable from spread and commission revenue. A long-term partnership rate, not a promotional one.

**TIER 1 EARNING EXAMPLE — 20 DIRECT CLIENTS, 10 LOTS/MO EACH**

<p><b>20</b></p> <p>DIRECT CLIENTS</p> <p>Active &amp; KYC'd</p>	<p><b>200</b></p> <p>MONTHLY LOTS</p> <p>20 × 10 lots</p>	<p><b>\$1,600</b></p> <p>MONTHLY REBATE</p> <p>200 × \$8</p>	<p><b>\$19,200</b></p> <p>ANNUAL RECURRING</p> <p>From Tier 1 alone</p>
--	---	--	---

10 · PART C · IB

# Tier 2 — Sub-IB Network

The second earning layer — when partners in your network bring in their own clients, you earn \$3 on every lot those clients trade, for their lifetime as AmiriFX clients.

**REBATE**

**\$3**

per round-turn lot · daily payout

Calculation	Round-turn
Min. active sub-IBs	2
Max sub-IBs	Unlimited
Network visibility	Full tree view
Sub-IB approval	Required

**How Tier 2 works**

When a direct contact (a sub-IB) registers under your IB account and brings their own clients, those clients become Tier 2 sources. The sub-IB earns Tier 1 (\$8); you earn Tier 2 (\$3) on the same lot. No manual reconciliation.

**Qualification threshold**

Activate Tier 2 payouts with at least 2 active sub-IBs — sub-partners with at least one qualifying client trading regularly.

**Why Tier 2 is the power tier**

Most successful partners build long-term income through Tier 2. A small group of motivated sub-IBs can outperform a much larger number of direct clients, with far less acquisition work.

**TIER 2 SCALING EXAMPLE — 5 SUB-IBS × 15 CLIENTS × 10 LOTS/MO**

**5**

ACTIVE SUB-IBS  
Under your network

**75**

SUB-IB CLIENTS  
15 each × 5 sub-IBs

**750**

MONTHLY LOTS  
75 × 10 lots

**\$27,000**

ANNUAL TIER 2  
\$2,250 × 12 months

11 · PART C · IB

# Tier 3 — Extended Network

Passive income from the third layer of your network — fully automated, zero qualification threshold, paid daily for the lifetime of every client in the extended layer.

**REBATE**

**\$1**

per round-turn lot · daily payout

Calculation	<b>Round-turn</b>
Qualification	<b>Automatic</b>
Network depth	<b>3 layers required</b>
Active engagement	<b>None required</b>
Cap	<b>No limit</b>

**The passive layer**

When your sub-IBs build their own sub-IB networks, the third layer of clients — introduced by partners two levels beneath you — generates an additional \$1 per lot. Pure passive income.

**No qualification threshold**

Tier 3 has zero minimum. The moment your network reaches three layers of depth, Tier 3 rebates begin crediting automatically. The system handles attribution end-to-end.

**The compounding effect**

Tier 3 turns the IB program into a true wealth-building engine. Master IBs typically generate 15–25% of total income from Tier 3 alone after 18–24 months.

**TIER 3 EXAMPLE AT SCALE — 200 EXTENDED CLIENTS, 10 LOTS/MO AVG**

<p><b>200</b></p> <p>TIER 3 CLIENTS</p> <p>Two layers below you</p>	<p><b>2,000</b></p> <p>MONTHLY LOTS</p> <p>200 × 10 lots avg</p>	<p><b>\$2,000</b></p> <p>MONTHLY TIER 3</p> <p>2,000 × \$1</p>	<p><b>\$24,000</b></p> <p>ANNUAL PASSIVE</p> <p>Zero direct effort</p>

# Earnings Calculator

Three realistic earning scenarios — starter partner, growing IB and master network — modelled on the typical AmiriFX client trading 10 lots per month.

The most useful way to understand IB earnings is to model real network sizes. Below are three illustrative scenarios — based on the typical AmiriFX client averaging 10 lots per month across forex and CFD products.

SCENARIO	NETWORK SIZE	MONTHLY LOTS	MONTHLY REBATE	ANNUAL
<b>Starter Partner</b> Tier 1 only	10 direct clients	100 lots	<b>\$800</b>	\$9,600
<b>Active IB</b> Tier 1 + Tier 2	25 direct + 5 sub-IBs (15 each)	250 + 750 = 1,000	<b>\$4,250</b>	\$51,000
<b>Master IB</b> All three tiers	50 direct + 15 sub-IBs + 200 T3	500 + 2,250 + 2,000 = 4,750	<b>\$16,750</b>	\$201,000

## MASTER IB SCENARIO — FULL BREAKDOWN

**TIER 1 INCOME**

**\$4,000 / month**

50 direct × 10 lots × \$8 = \$4,000 from your own client base.

**TIER 2 INCOME**

**\$6,750 / month**

15 sub-IBs × 15 clients × 10 lots × \$3 = \$6,750 from sub-IB networks.

**TIER 3 INCOME**

**\$2,000 / month**

200 extended clients × 10 lots × \$1 = \$2,000 pure passive income.

**! NOTE**

All figures are illustrative and based on assumed average client volume. Actual earnings depend on client activity, retention and the trading pairs your network favours (FX majors generate the highest qualifying lot volume).

# How to Become an IB

Five clear conditions activate IB status on AmiriFX. Once met, the system auto-promotes the partner — no manual review, no waiting period, withdrawals open with no time limit.

1

## Register 5 Clients

Sign up at least 5 client profiles under your IB referral link. Each profile must be unique and KYC-verified.

2

## Minimum Deposit

Every client profile must deposit a minimum of \$250 USD into their trading account.

3

## Trading Volume

Each profile must trade at least 1 lot on a Standard account, or 15 lots on a Pro account, to unlock IB / Sub-IB withdrawals.

4

## Auto Promotion

Once all conditions are met, the system automatically promotes you to active IB status — no manual approval needed.

5

## T&C Accepted

Each IB and Sub-IB accepts the AmiriFX T&C by default at account opening — no separate signing required.

★ **KEY ADVANTAGE — NO TIME LIMIT ON IB / SUB-IB BROKERAGE WITHDRAWALS ONCE YOU QUALIFY**

Once the qualification thresholds are met, your IB account remains active permanently. Withdraw rebate earnings any time — **no monthly cap, no waiting period, no re-qualification cycle.**

# Frequently Asked Questions

The questions AmiriFX partners most often ask in their first weeks — answered directly, without the marketing fluff.

**Q: Do I need to be a registered company to become a partner?**

A: No. Both individuals and registered companies can apply. Individual partners use personal KYC; corporate partners submit company registration plus director KYC.

**Q: Can I run both CPA and IB tracks at the same time?**

A: Yes — they coexist within the same partner account. Different referral links can be tagged with different attribution models. Most professional partners use both.

**Q: What happens if a client stops trading for a while?**

A: Nothing — they remain attributed to your IB account permanently. If they resume later, you continue earning rebates on every lot. No attribution expiry.

**Q: Are rebates paid on all instruments equally?**

A: Rebates are calculated per round-turn lot. Forex majors generate the highest qualifying volume. Metals, indices and CFDs also generate rebates at instrument-specific equivalent rates.

**Q: Can I be both a client and a partner at the same time?**

A: Yes — many top partners are themselves active traders. You can operate a personal trading account and a partner IB account from the same login.

**Q: Can I run paid advertising campaigns?**

A: Yes — Facebook, Google, TikTok, YouTube and native ad networks are all permitted, subject to each platform's financial ad policies. Bidding on AmiriFX branded keywords is not permitted.

**Q: What if my sub-IB closes their partner account?**

A: Their direct clients remain in the ecosystem and continue trading — but Tier 2 attribution to you stops on the date the sub-IB closes. Your Tier 1 clients are never affected.

**Q: Is there a minimum performance requirement?**

A: Tier 1 payouts require 5 active direct clients. Tier 2 requires 2 active sub-IBs. Tier 3 has no threshold. Accumulated balances and network structure are preserved.

**Q: What's the clawback policy on CPA?**

A: CPA payouts are subject to a 60-day clawback if a client withdraws their deposit without trading the required qualifying volume. After 60 days, CPA is non-clawback.

**Q: How do I get started?**

A: Visit [amirifx.com/partners](https://amirifx.com/partners) and submit the application form, or contact [support@amirifx.com](mailto:support@amirifx.com) directly. Most applications are reviewed and approved within one business day.

# Apply today. Start earning tomorrow.

Submit your partner application at [amirifx.com/partners](https://amirifx.com/partners) or reach the partnership team directly. Most applications are approved within one business day – and your first referral link is live the same day. Daily rebates begin from the first qualifying trade.
